**Practice Paper 17**

**(Cut Answer Sheet from Back Page)**

# English – Practice Test

In this question there is either **one** punctuation mistake or **no** punctuation mistake. Find the group of words with the mistake in it and mark its letter on your answer sheet. **If there is no mistake, mark N.**

**P1** There was a long queue at the check-in desk; lots of the staff had gone on strike.

In this question you have to choose the **best** word to complete the sentence, so that it makes sense and is written in correct English. Choose the **best** answer and mark its letter on your answer sheet.

**P2** I can carry her easily; she is as

lighter    small    light    soft    bright as a feather.  
A                    B                    C                    D                    E

In this question there is either **one** spelling mistake or **no** spelling mistake. Find the group of words with the mistake in it and mark its letter on your answer sheet. **If there is no mistake, mark N.**

**P3** Running the marathon was a huge challenge but he trained hard and never gave up.

Read this passage to yourself.

**Extract from The Story of Dr Dolittle by Hugh Lofting**

And another time, when the circus came to Puddleby, the crocodile who had a bad toothache escaped at night and came into the Doctor's garden. The Doctor talked to him in crocodile-language and took him into the house and made his tooth better. But when the crocodile saw what a nice house it was—with all the different places for the different kinds of animals—he too wanted to live with the Doctor. He asked couldn't he sleep in the fish-pond at the bottom of the garden, if he promised not to eat the fish. When the circus-men came to take him back he got so wild and savage that he frightened them away. But to everyone in the house he was always as gentle as a kitten.

Answer this question. Choose **one** answer from the options below and mark its letter on your answer sheet.

**P4**

**Which of the following is true about the crocodile?**

- A It speaks English.
- B It escaped from the zoo.
- C It is gentle with Dr Dolittle.
- D It wants to sleep in Dr Dolittle's house.
- E It eats the fish in the pond.

For this question, you have to write your answer in the box provided on your answer sheet (box P5).

**P5**

The word "**wild**" is used in the passage. Find **another word in the passage** which means the same as "**wild**".

Savage

# Maths – Practice Test

P6

How many seconds are there in  $\frac{7}{10}$  of an hour?

$$\frac{7}{10} \text{ of } 60 = 42$$

A 2520

B 4200

C 7010

D 3660

E 2820

$$\begin{array}{r} 42 \\ \times 60 \\ \hline 2520 \end{array}$$

P7

Look at the five lengths below.

A. 1.49 m

B. 1.49 cm

C. 14.9 m

D. 14.9 cm

E. 0.0149m

$$1 \text{ cm} = 10 \text{ mm}$$

$$149 \div 10 = \underline{14.9 \text{ cm}}$$

Which of these is the same as 149mm?

A A

B B

C C

D D

E E

# P8

Each day Jen sleeps for 8 hours. A day is 24 hours.

- A. One third
- B. Two thirds**
- C. One half
- D. One quarter
- E. Three quarters

Sleeps 8  
\*Awake 16\*

$$\frac{16}{24} = \frac{2}{3}$$

For what fraction of the day is she awake?

- A A    **B B**    C C    D D    E E

For these questions you have to **write your answers** in the boxes provided on your answer sheet (box P9 and P10). The units of measurement have been given.

# P9

A letter is chosen at random from the word:

**M I N I M A L I S T**

Look at the 3 statements below.

- False* A. The letter chosen is least likely to be M.  $\frac{2}{10} = M$   $\frac{1}{10} = S$   
*True* B. The letters L and T have an equal probability.  $L = \frac{1}{10}$   $T = \frac{1}{10}$   
*True* C. There is a greater chance of choosing the letter I than N.  $I = \frac{3}{10}$   $N = \frac{1}{10}$

Which statement above is false?

**A**

# P10

A box of sweets costs £4.02.

$$\begin{array}{r} 4.02 \\ \times 4 \\ \hline \pounds 16.08 \end{array}$$

$$\begin{array}{r} 4.02 \\ \times 5 \\ \hline \pounds 20.10 \end{array}$$

What is the largest number of boxes I can buy with £20?

**4**

# English – Main Test

In this exercise there are some mistakes with **punctuation** or use of **capital letters**. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is no mistake, mark **N**.

## Punctuation Exercise

1 I'm not surprised that you failed the exam. You didn't do any revision, did you? <sup>(?)</sup>

↑ A ↑ B ↑ C ↑ D

2 Nursery school is so easy; the children just have to eat paint, draw and play all day.

↑ A ↑ B ↑ C ↑ D

*Comma needed*

3 "Can I help you?" the shop assistant asked. "It seems like you are looking for something."

↑ A ↑ B ↑ C ↑ D

*Close speech*

4 I understand that you are sorry, but it doesn't make me feel any better.

↑ A ↑ B ↑ C ↑ D

*Apostrophe*

5 There are so many school's in the area but I still can't choose which one I like best.

↑ A ↑ B ↑ C ↑ D

*Doesn't need an apostrophe, plural*

In this exercise you have to choose the **best** word, or **group of words**, to complete each numbered line so that the passage makes sense and is written in correct English. Choose the best answer and **mark its letter on your answer sheet**.

## Grammar Exercise

6

I will always support my local football team

because    so that    so    even if    until   they never win.  
A                      B                      C                      D                      E

7

I know you were embarrassed, but some day you will be able to laugh

about    on    in    for    with   it.  
A                      B                      C                      D                      E

8

James is such a talented golfer. We are very proud of

her    him    us    me    them   .  
A                      B                      C                      D                      E

9

I wish that we could stay longer; time

stops    sails    glides    slows    flies   when you are having fun.  
A                      B                      C                      D                      E

10

There  are    was    were    is    will be

ten runners at the start, but only six finished the race.

In this exercise there are some **spelling** mistakes. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is no mistake, mark **N**.

## Spelling Exercise

11 You can't eat that sandwich! It's got blue mould growing all over it!

A B C D

N

12 If you need any help at all, please do not hesitate to contact me at the office.

A B C D

13 It is essential that you wash your hands before you start to prepare the food.

A B C D

14 We tried to get the bird out of the classroom but it flew up to the ceiling.

A B C D

15 I heard that you were unwell so I made this chicken soup especialy for you.

A B C D

Read the **whole** passage carefully, then answer the questions that follow.

**Extract from The Story of Dr Dolittle by Hugh Lofting**

1. Once upon a time, many years ago <sup>(16)</sup>—when our grandfathers were little children—there  
2. was a doctor; and his name was Dolittle—John Dolittle, M.D. “M.D.” means that he was  
3. a proper doctor and knew a whole lot. <sup>(25)</sup>

4. He lived in a little town called, Puddleby-on-the-Marsh. All the folks, young and old,  
5. knew him well by sight. And whenever he walked down the street in his high hat <sup>(23)</sup>  
6. everyone would say, “There goes the Doctor!—He’s a clever man.” And the dogs and the  
7. children would all run up and follow behind him; and even the crows that lived in the  
8. church-tower would caw and nod their heads.

9. The house he lived in, on the edge of the town, was quite small; but his garden was very  
10. large and had a wide lawn <sup>(17)</sup> and stone seats and weeping-willows hanging over. His sister,  
11. Sarah Dolittle, was housekeeper for him; but the Doctor looked after the garden himself.  
12. He was very fond of animals and kept many kinds of pets. Besides the gold-fish in the  
13. pond at the bottom of his garden, he had rabbits in the pantry, white mice in his piano, a  
14. squirrel in the linen closet and a hedgehog in the cellar. He had a cow with a calves too, and  
15. an old lame horse—twenty-five years of age—and chickens, and pigeons, and two lambs, <sup>(24)</sup>  
16. and many other animals. But his favorite pets were Dab-Dab the duck, Jip the dog, Gub-  
17. Gub the baby pig, Polynesia the parrot, and the owl Too-Too

18. His sister used to grumble <sup>(26)</sup> about all these animals and said they made the house untidy.  
19. And one day when an old lady with rheumatism came to see the Doctor, she sat on the  
20. hedgehog who was sleeping on the sofa and never came to see him any more, but drove  
21. every Saturday all the way to Oxenthorpe, another town ten miles off, to see a different  
22. doctor.

23. Then his sister, Sarah Dolittle, came to him and said,  
24. “John, how can you expect sick people to come and see you when you keep all these  
25. animals in the house? It’s a fine doctor would have his parlor full of hedgehogs and mice!  
26. That’s the fourth personage these animals have driven away. Squire Jenkins and the  
27. Parson say they wouldn’t come near your house again—no matter how sick they are. We  
28. are getting poorer every day. If you go on like this, none of the best people will have you  
29. for a doctor.” <sup>(19)</sup>

30. "But I like the animals better than the 'best people'," said the Doctor.

31. "You are ridiculous," said his sister, and walked out of the room.

32. So, as time went on, the Doctor got more and more animals; and the people who came to  
33. see him got less and less. [...]

34. Sixpence a year wasn't enough to live on—even in those days, long ago; and if the  
35. Doctor hadn't had some money saved up in his money-box, no one knows what would  
36. have happened. (21)

37. And he kept on getting still more pets; and of course it cost a lot to feed them. And the  
38. money he had saved up grew littler and littler. (27) (20)

39. Then he sold his piano (28) and let the mice live in a bureau-drawer (28) But the money he got for  
40. that too began to go, so he sold the brown suit he wore on Sundays and went on  
41. becoming poorer and poorer. (28) (20)

22 42. And now, when he walked down the street in his high hat, people would say to one  
43. another, "There goes John Dolittle, M.D.! There was a time when he was the best known  
44. doctor in the West Country—Look at him now—He hasn't any money and his stockings  
45. are full of holes!"

46. But the dogs and the cats and the children still ran up and followed him through the  
47. town—the same as they had done when he was rich.

Please answer these questions. (Look at the passage again if you need to.) You should choose the **best** answer and mark its letter on your answer sheet.

16

**When does the story take place?**

- A in the present
- B in summer
- C in the future
- D in spring
- E in the past

17

**Look at lines 9 – 12. Which of the following is true about Dr Dolittle's house?**

- A It is in the middle of the town.
- B It is quite large.
- C The garden is quite small.
- D Dr Dolittle lives alone in the house.
- E The garden has a wide lawn.

18

**Based on what you have read in the passage, what is the main reason why Sarah Dolittle is worried about having the animals in the house?**

- A She is worried that the animals will attack her.
- B She is worried that the animals will stop people from coming to see Dr Dolittle.
- C She is worried because she is allergic to the animals.
- D She is worried that the animals will wreck the house.
- E She is worried because she thinks Dr Dolittle likes the animals better than her.

19

**Look at lines 26 – 30. What is the meaning of the phrase "best people" in these lines?**

- A The kindest people in the town.
- B The cleverest people in the town.
- C The richest people in the town.
- D The sickest people in the town.
- E The oldest people in the town.

20

Why does Dr Dolittle become "poorer and poorer"? (line 41)

- A Because he isn't earning any money.
- B Because he is very careless with money.
- C Because he buys too much food.
- D Because he is not a very good doctor.
- E Because his sister takes all his money.

21

Where does Dr Dolittle get money from when he has no patients?

- A His sister Sarah gives him money.
- B He earns money from his animals.
- C He sells his house to get money.
- D He uses the money he saved in his money-box.
- E The people in the town give him money.

22

Look at lines 42 – 47. If there was lesson to learn from these lines, what would it be?

- A Don't have too many pets.
- B Don't become a doctor.
- C Don't judge someone by how much money they have.
- D Don't live with your sister.
- E Humans know best and animals are stupid.

For these questions you have to **write your answers**, neatly, in the boxes provided on your answer sheet.

23

What kind of hat does Dr Dolittle wear?

High hat

24

How many different types of animals live with Dr Dolittle at the start of the story?

15 (or 16 if calf is counted as a different animal)

25

Which word in line 3 means the same as "real"?

Proper

26

Which word in line 18 means the same as "complain"?

Grumble

27

Which part of speech is "cost" as it appears in the passage? (line 37)

Verb

28

Which one part of speech are the following as they appear in the passage?

then (line 39) and (line 39) but (line 39) so (line 40)

Conjunctions (connectives)

# Maths – Main Test

29

A bus leaves the bus station with 34 passengers on board. At the first stop 11 passengers get off and 8 get on. At the second stop 12 passengers get off and 18 get on.

How many passengers are on the bus as it leaves the second stop?

A 34

B 42

C 37

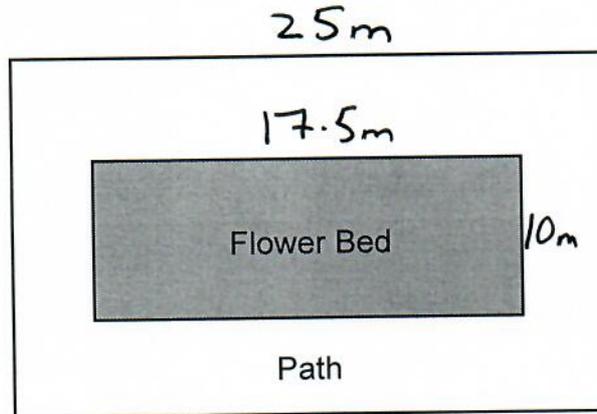

D 29

E 43

$$\begin{array}{r}

 \end{array}$$

30

Look at the diagram below. It shows a rectangular flower bed in the centre of a rectangular garden. The garden is 25 metres long and 13 metres wide. The flower bed is 17.5 metres long and 10 metres wide.

$$\begin{array}{r}
 25 \times 2 = 50 \\
 13 \times 2 = 26 \\
 + \quad \quad \quad \\
 \hline
 76
 \end{array}$$

$$\begin{array}{r}
 17.5 \times 2 = 35 \\
 10 \times 2 = 20 \\
 \hline
 55
 \end{array}$$

$$\begin{array}{r}
 76 \\
 - 55 \\
 \hline
 21
 \end{array}$$

How much further is it to walk around the outside edge of the garden than the outside edge of the flower bed?

A 131m

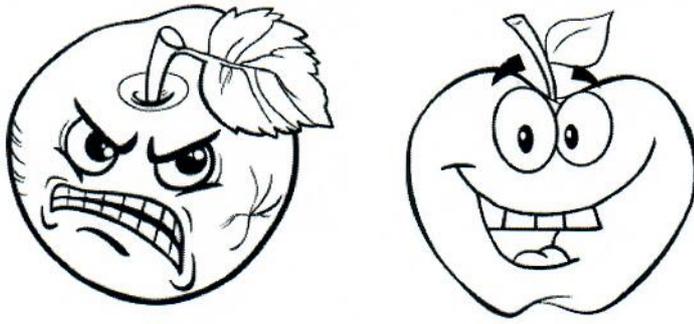

B 55m

C 76m

D 10.5m

E 21m

31

There are 15 bad apples and 10 good apples in a bag.

A:  $\frac{1}{2}$

$15 + 10 = 25$

B:  $\frac{2}{5}$

$$\frac{10}{25} \stackrel{\div 5}{=} \frac{2}{5}$$

C:  $\frac{10}{15}$

D:  $\frac{2}{3}$

E:  $\frac{2}{3}$

From the list above, what fraction of the bag are good apples?

A A

B B

C C

D D

E E

32

How many numbers between 10 and 40 are odd numbers but not multiples of

3, 5 or 11?

# 33

A film is on Channel 1. Another film is on Channel 2. They both finish at the same time. The film on Channel 1 lasted 94 mins and started at 19:12. The film on Channel 2 lasted 106 mins.

$$\begin{array}{r} 19:12 \\ + 01:34 \\ \hline 20:46 \end{array}$$

At what time did the film on Channel 2 start?

	Start	End	TT
Ch1	19:12	20:46	1hr 34m
Ch2	19:00	20:46	1hr 46m

**A 19:00**

B 18:54

C 19:06

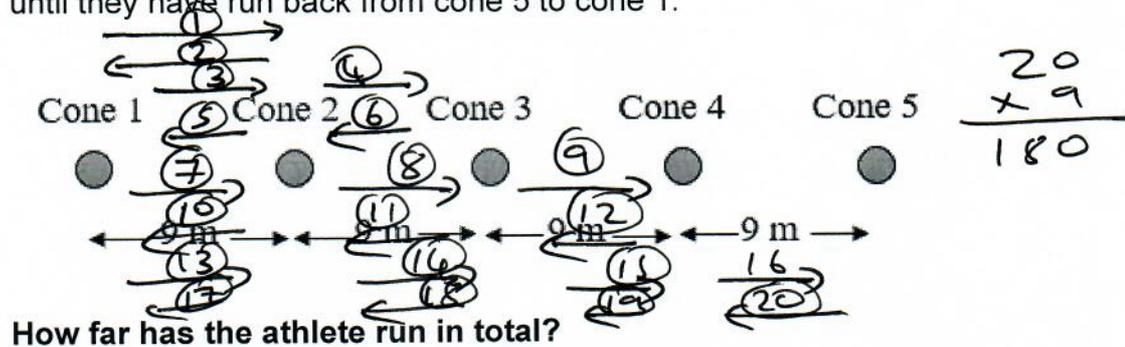

D 20:16

E 18:52

$$\begin{array}{r} 12'0:46 \\ - 1:46 \\ \hline 19:00 \end{array}$$

# 34

Look at the diagram below. There are 3 cones and the distance between the cones is 9 metres. An athlete starts at cone 1, runs directly to cone 2 and then back to cone 1. They then run from cone 1 to cone 3 and back to cone 1. They continue this way until they have run back from cone 5 to cone 1.

How far has the athlete run in total?

A 36m

B 900m

**C 180m**

D 450m

E 90m

# 35

Look at the sequence of numbers below.

$$\begin{array}{ccccccc} & \times 2 & \times 2 & \times 2 & & & \\ 0.25 & 0.5 & 1 & 2 & 4 & \text{or} & 3.75 \\ +0.25 & +0.5 & +1 & +1.75 & & & \end{array}$$

What is the next number in the sequence?

A 3

B 0.25

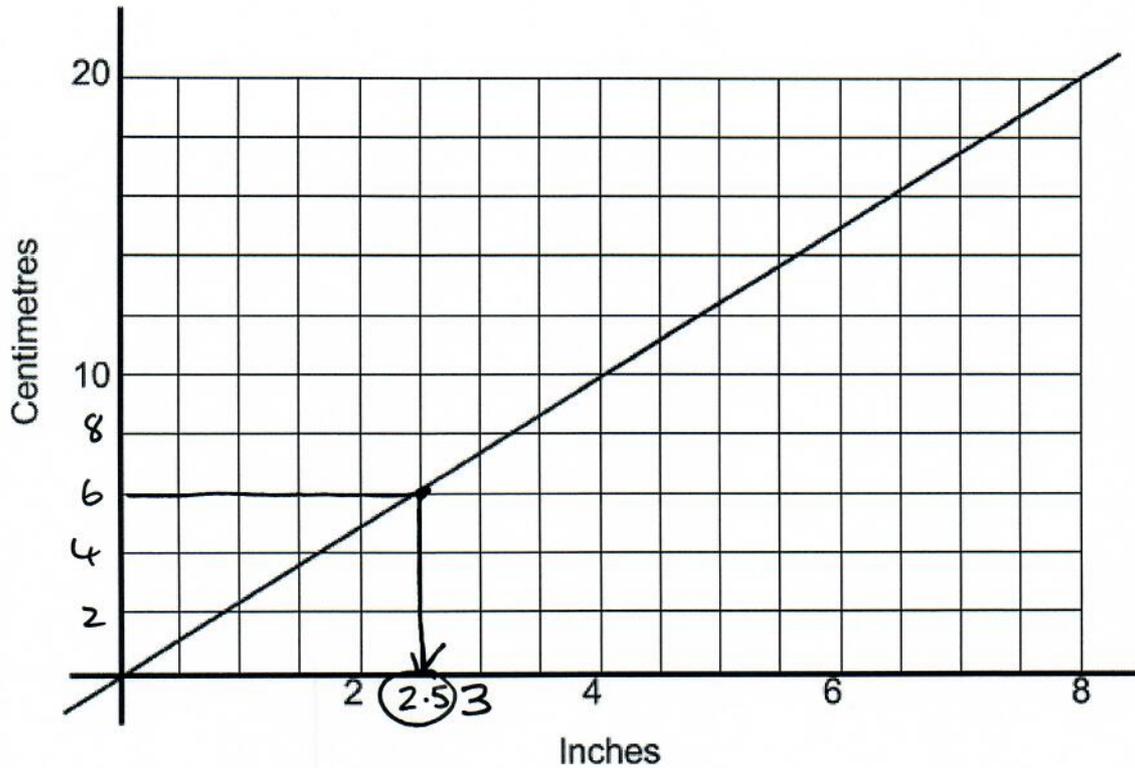

**C 4**

D 8

**E 3.75**

Ruth's graph can be used to convert between centimetres and inches.

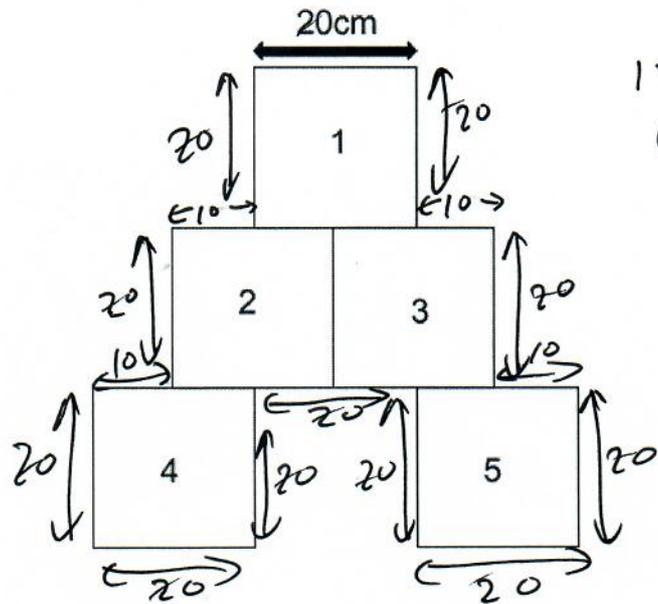

Use her graph, what would 6 centimetres in inches?

- A 15
- B 3
- C 4.5
- D 2.5
- E 3

40

Look at the diagram of a hopscotch grid below. It is made up of identical squares. Each square has a number written in it. The length of the side of each square is 20 cm.

$$\begin{array}{r}
 12 \times 20 = 240 \\
 4 \times 10 = + 40 \\
 \hline
 280
 \end{array}$$

What is the perimeter of the hopscotch grid?

A 320cm

B 2000cm

C 360cm

D 100cm

E 280cm

41

John is selling different types of hot sauces at the local fair. Below is a list of how many bottles of each sauce he has left in stock.

- 1 Weak = 21
- 2 Mild = 13
- 3 Hot = 6
- 4 Very Hot = 5
- 5 Super Hot = 11
- 6 Don't even try! = 34

$$\begin{array}{r}
 34 \\
 22 \\

A room measures 8m by 5m by 0.9m.

What is the volume of the air in the room?

- A 30.6m<sup>3</sup>    B 36m<sup>3</sup>    C 360m<sup>3</sup>    D 3.6m<sup>3</sup>    E 300.6m<sup>3</sup>

$$8 \times 5 \times 0.9 = 36 \text{ m}^3$$

# 48

Clare had fifty six coins in her purse. She had:

▪ Thirteen	×	10p coins	=	£1.30
▪ Eleven	×	5p coins	=	55p
▪ Twenty Three	×	2p coins	=	46p
▪ Nine	×	1p coins	=	9p
				<u>£2.40</u>

At the bank, Clare swaps these coins for 20p coins.

$$\begin{array}{r}
 12 \\
 20 \overline{) 240} \\
 \underline{200} \\
 40 \\
 \underline{40} \\
 0
 \end{array}$$

How many 20p coins did she get?

- A 56    B 18    C 8    D 12    E 20

49

A metal coin contains copper, nickel and tin.

63% of the coin is copper.

$\frac{1}{5}$  of the coin is nickel.

The remainder of the coin is tin.

$$\frac{1}{5} = \frac{2}{10} = 20\%$$

$$\begin{array}{r} 63\% \\ + 20\% \\ \hline 83\% \end{array}$$

$$\begin{array}{r} 100\% \\ - 83\% \\ \hline 17\% \end{array}$$

What percentage of the coin is tin?

A 17%

B 37%

C 32%

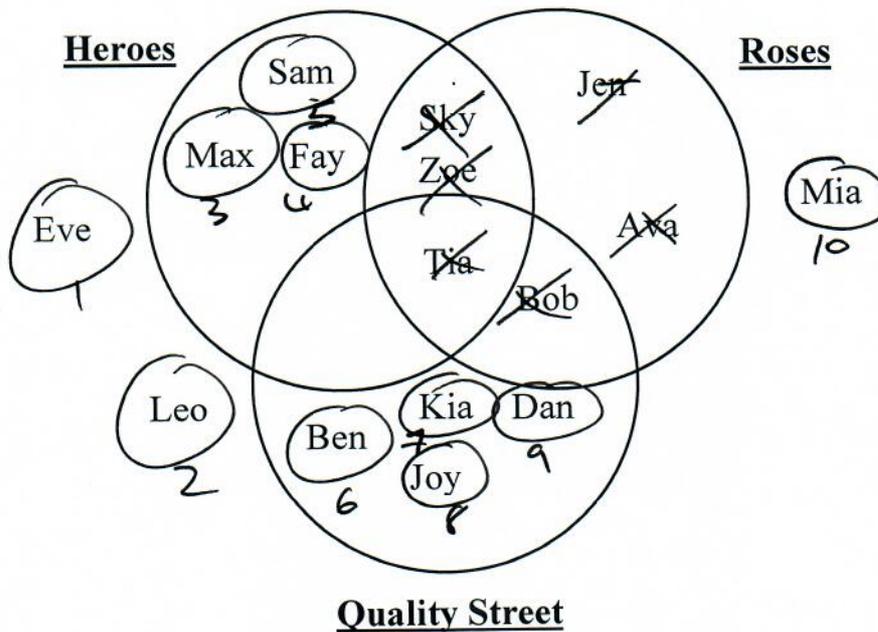

D 20%

E 83%

50

A survey was carried out to find the sweets 16 different people enjoy.

The Venn diagram below shows the results of the survey.

How many people do not like Roses?

A 7

B 9

C 10

D 6

E 8

For questions 51–56, you have to **write your answers** in the boxes provided on your answer sheet. The units of measurement have been given.

# 51

Four girls named Sophia, Ava, Mia and Emily are standing in order of increasing height.

- Mia is taller than Ava      *Ava, Mia ✓*
- Emily is taller than Mia      *Ava, Mia, Emily ✓*
- Sophia is taller than Mia      *Ava, Mia, Sophia, Emily ✓*
- Emily is taller than Sophia      *Ava, Mia, Sophia, Emily ✓*

**What order are they standing in from shortest to tallest?**

*Ava, Mia, Sophia, Emily*  
*shortest*
*tallest*

# 52

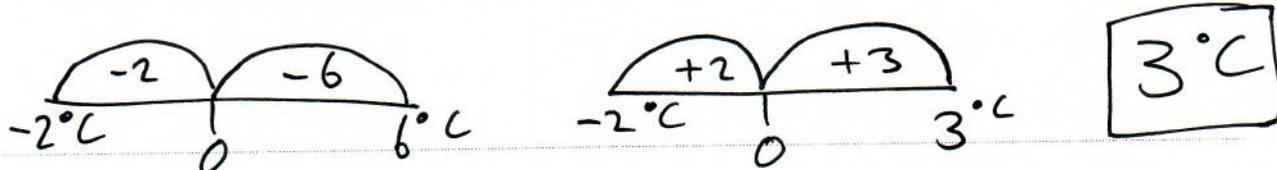

The table below shows the temperature in Banbridge at different times of the day. There are 2 temperatures missing from the table.

Time	6 am	9 am	12 noon	3 pm	8 pm
Temperature in °C	6	-2	3	9	15

You are given the following information.

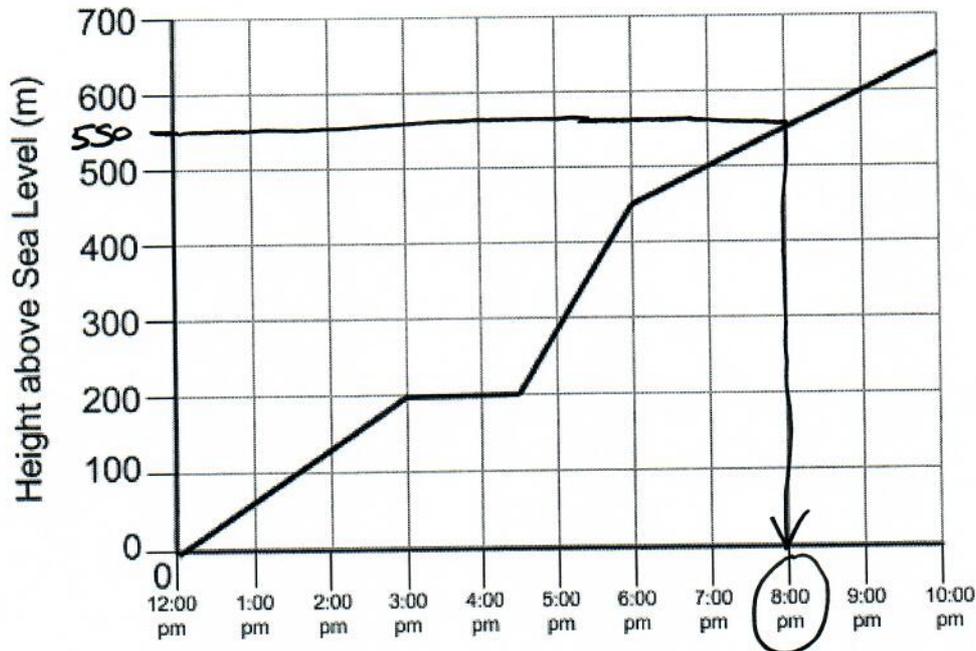

- The temperature decreased by 8°C between 6am and 9am.
- The temperature increased by 5°C between 9am and 12 noon.

**What was the temperature at 12 noon?**

# 53

A walker climbs up to the top of a mountain. The graph below shows the walker's height above sea level at certain times of the day.

What time did the walker reach 550 meters above sea level in 24 hour clock?

20:00

# 54

What number is exactly halfway between 391 and 748?

$$\begin{array}{r}
 748 \\
 + 391 \\
 \hline
 2 \overline{) 1139.0} \\
 \underline{0569.5} \\
 \hline
 \end{array}$$

569.5

A phone user has created a passcode for the mobile phone. Here is some information about it.

- It is a 4 digit number.
- The digits increase in size from right to left.
- Each digit appears only once.
- The first and last digits multiply to give 36.
- The middle two digits add to give 13.
- All the digits add to make 26.

What is the 4 digit passcode?
